ASA-AMOffice©

Watermarks are printed in new forms

In some cases, it may happen that one of the following watermarks is displayed in a new PDF Forms:

- DEMO Version www.docu-track.com Tracker Software

- PDF XChange Viwer Click to buy now

In these cases, additional software was installed that overwrote the valid registration information of ASA-AMOffice©

To remove those watermarks, continue as follows:

- Scan your system for newly installed software that uses the PDFXChange Viewer Company "Tracker Software Products", and remove it.

- Register the PDF viewer again. Download the file from the attachment and run this file with administrator privileges.
